Came in handy when I didn't have any quarters to wash my clothes in my building.

Wendy Contreras Nov 9, 2016

Quick set up, washing clothes in minutes. Our building added this option for the washer and dryer and I gotta say I'm pretty happy with it so far. Hooked up to my Android Pay and was up and running in about 1 minute. No more begging for quarters at the supermarket or Saturday trips to the bank.

It's awesome! If I don't have money on me and I need a snack this app saves the day. Much safer and less expensive than using my card on the machine.

Love this app/service! Couldn't be easier to fund and use. So convenient; I only hope more vending machines join the club.
