

Remote Pay

Refund your customers from anywhere.

Feature Overview

Ever had a call from an angry customer who lost their coins in your machines? How much time, money and effort it did it cost you over a failed \$2.00 purchase? It only takes one quarter to jam one of your machines—don't let twenty-five cents cost you hours of productivity.

Enhance customer service and improve your operational efficiency with PayRange Remote Pay. Remote Pay is a convenient feature that lets you effortlessly send payments to your machines from anywhere. No more rushing to the location to solve payment or machine issues. With PayRange Remote Pay, you can resolve customer issues instantly and keep your business running smoothly.

The Remote Pay feature is accessed from your PayRange MANAGE operator account. From MANAGE, you select the machine you want to send payment to, initiate the payment, and within seconds your customers can start the machine.

Getting Started

To use the Remote Pay feature, your location must have a PayRange BluKey Connect installed. Remote Pay is available with a low monthly subscription fee. To access Remote Pay, log in to your MANAGE operator account and create a "Room".

Key Benefits

- Make Daily Operations Smoother**
Send payments from anywhere, saving time and avoiding unnecessary trips to your location.
- Boost Customer Convenience**
Customers can start your machine without needing coins or cards, enhancing their experience and encouraging repeat business.
- Enhance Customer Satisfaction**
Resolve customer issues quickly by sending payments remotely, reducing wait times and improving customer satisfaction.
- Reduce Machine Downtime**
Minimize machine downtime by instantly authorizing payments, keeping machines running and maximizing revenue potential.
